Sharing close to 50 years of industry-leading shelving storage design expertise, COSHATT'S variety of modular stock shelving options and custom storage solutions are specifically designed for every area of your warehouse or storage space. Whether you are updating an existing space, or starting from scratch, our trained professional designers and installers guide you to your preferred environment. Creating spaces with efficient work flows and budgets, while achieving the ultimate aesthetic is our mission.

A lot has changed since our humble beginnings, but as our industry evolves, what hasn't changed is the passion and pride we take in designing and installing each and every space. COSHATT's team comprised of industry specific design experts stay at the forefront by creating new solutions to meet the ever-changing needs of tomorrow. This design background and industry specific experience enables us to be a trusted and preferred partner by world-class companies around the country.
